A number of freedmen from Bibb and Hancock counties, Georgia, are preparing to leave for Liberia.

A Macon, Ga., telegram says the city authorities furnish from six to ten coffins per day for colored paupers.

Rev. Sylvanus Cobb, the well known Universalist clergyman, died in Boston, yesterday, aged eighty-eight years.

Twenty-eight thousand dollars of money stolen from Paymaster Glenn, United States Army, in Nevada, has been recovered.

Gov. Throckmorton has approved a joint resolution of the Texas Legislature, inviting labor and capital into the State, for the development of the great resources of Texas.

At a special convention of the Diocese of Maine, held at Gardiner on Tuesday, Rev. A. Healy, of New York, was unanimously elected Bishop.

The Washington Republican and Evening Star, Presidential organs, both denounce the stories about the Mexican treaty, as stock-jobbing fabrications.

The Memphis and Little Rock Railway Company has executed a contract with Gen. Forrest and his associate, which contemplates the absolute completion of the Memphis and Little Rock Road, within fourteen months.

Nearly two thousand Germans leave Europe every week for the United States, in the Bremen and Hamburg mail steamers. A company is established at Copenhagen to encourage the emigration of Danes, Norwegians and Swedes to the United States.

The editor of the New York News has been shown a machine invented by Mr. P. F. Milligan, by the application of which to railroad bridges, culverts, trestlework, etc., the engineer, as Mr. Milligan claims, can see at a glance, as he approaches each and every bridge, culvert, etc. First—whether there has been a freshet, and how high the water has been. Secondly—whether the track has settled from its proper or sound position, and, if so, how much it has gone down. And thirdly—if the bridge, culvert, etc., be burnt down or swept entirely away. The absence of the lamps is proof positive that they are gone, and calls on the engineer to stop his train.

Our foreign advices again breathe threats of European war. The cable says it is to be between Russia and Austria; whilst other advices team with reports of Napoleon's preparations for strengthening his army, and also declare that Austria hates Prussia so intensely that a comparatively small difficulty would fan the smoldering embers of hostility again into a flame. It is generally conceded that the present peace in Germany does not rest upon any firm basis, and that so long as Napoleon lives he will try to aggrandize France by stirring up quarrels among her neighbors.

On the other side of the ocean, where what is passing in America receives a very rigid examination, it is believed a great civil war is inevitable. It is true there is some prospect of a civil war in this country, but we hope that the thinking people of the twelve States in which elections were held yesterday, have taken a step to prevent it.

Our Northern Advisers.

The New York Evening Post still clings to the Constitutional Amendment. It has been writing on that subject for a couple of months, and does not seem to have exhausted the subject yet. The last number contains an editorial in which the editor calmly considers what would be the result should the Constitutional Amendment fail to pass; should it be rejected by all the Southern States. It is plain he thinks, in the first place, that we shall be condemned still longer to the condition in which the country, to its very great injury, has been for now eighteen months—a condition we have called anarchical, and which would be as bad as that of Mexico, were it not that our people have more patience, and have not yet fallen into the habit of shooting each other for political differences. The Post does not think, however, we could stop here. Political parties will divide upon an issue of extremes—an issue between a party who will demand the admission of the Southern States to all political power without the obstacle now in the way, and a party on the other hand, who will demand the utmost severity of punishment for the leaders of the war South and impartial suffrage in all the States, as the only security for the nation. Thus, according to the Post, with the rejection of the amendment, we shall enter upon another political struggle, more intense than that through which we are now passing, more injurious to the country, and especially to the Southern States—a contest of which the issue is doubtful; for the twenty millions of the Northern States will begin to see that the Southern people, though unsuccessful in war, will not be dragged into dishonor and disgrace by the radical party, now unfortunately in charge of the National Congress. We are not surprised the manly conduct of our section is irritating the Republican clan of politicians; we expected that when we took a stand against the oppressive measures of a sectional Congress. The Post's warnings will avail nothing. We have determined not to ratify the amendment. The Constitution suits us very well as it is. We want no tampering with organic law when "passion rules the hour" and justice is ignored. The North would weaken the Constitution beyond repair; indeed cupidity and ambition have already shaken its power, and left one section in poverty and distress. If the infatuated hindlers of peace and prosperity in this country, are going to be permitted to destroy it, we will go down with the general wreck, firm and unflinching, but not dishonored. So you had better devote a little ink to your own section. Look after the preparations of war that have been going on quietly for months; investigate the startling disclosure made by Mr. Raymond when a bill was hurried through Congress calling on the "loyal" States to organize, discipline and equip the militia, and providing for the distribution of two-thirds of the arms, ammunition and ordnance under custody of the general government. Turn your attention to Gov. Fenton, of New York, who is removing the conservative generals in his State and supplying their places with "Loyal Leaguers"; to the resistance at Baltimore; to Butler and his indictment; to Logan and his western force which is to march to Washington; to Shallabarger, of Ohio, who urges the application of the axe; to Phillips who demands that Congress shall be a perpetual body and govern the country; and to Forney who is filling his papers with inflammatory matter calculated to produce the conflict which we wish to avert. Turn your attention to the storm brewing at home. Mr. Post, and let the South and the amendment alone awhile. You may do some good there; you are certainly doing none here.

Gen. Ross, known in this section as the leader of a Texas brigade of cavalry during the war, has accepted the Colonely and chief command of the Regiment for the protection of the Texas Frontier. The Lieut. Colonely has been tendered to Gen. Ganes, while that tried and faithful friend of Texas, and expert and experienced Indian hunter, Maj. Ed. Burleson, has accepted the Majority.

A table published in the Iowa papers, shows that at the late election in that State the Conservatives succeeded in reducing the Radical majority by six thousand one hundred and sixty-two votes, which is a gain of 15 per cent. on their vote in 1864. In all the Northern States the late elections show the same results. With a fair, ticket and a full poll in Pennsylvania, the Radicals would be badly beaten.

The State University.—We are pleased to learn from the Oxford Falcon that there are now two hundred and ten students at the University, and that others are soon expected. The Falcon says:

"The wonder is that there is not now 500 students instead of 200, when we consider the liberal terms of the institution. No young man is too poor to enter its halls as a student in full fellowship. If a young man desiring to enter and has no money, tuition for a Collegiate year of ten months is \$50; if a young man desiring to enter College cannot pay that amount he will have respectable friends who can certify to the fact that he is qualified otherwise to enter, he will be received on equality with the other students. The standard of admission in regard to education is high, and it is right it should be. The tax for fuel for a student during a session is \$15, and for room rent \$3. So all that a young man has to do, to enter the University as a student is, to qualify himself by study. His board, clothing and fuel he is obliged to have wherever he lives. All student preparing for the Ministry are entitled

Laws of the State of Mississippi.
Public Acts, Called Session, 1866.
(BY AUTHORITY.)

AN ACT to amend the act entitled an act to establish County Courts, approved November 24th, 1865.

Section 1. Be it enacted by the Legislature of the State of Mississippi, That the County Courts established by the act to which this is an amendment, and by the supplement thereto, shall hereafter be presided over, and held by the person for the time being holding the office of Probate Judge of the respective counties, as sole Judge of said counties; and the terms of the said County Courts, instead of being once a month, as now provided, shall be once in every three months, except the following counties, say, the counties of Adams, DeSoto, Holmes, Lafayette, Rankin and Tunica, shall be held once in every month; the counties of Carroll, Hinds, Lauderdale, Madison, Monroe, Newton and Neshoba, shall be held once in every two months; and the counties of Attala, Harrison, Hancock, Jackson, Perry, Lawrence, Leake, Pike and Tippah shall be held once in every six months; and the Judges of said courts respectively shall fix and appoint said terms of said Courts, by an order entered in the minutes of said Courts. And that no information shall be filed, or allowed in said County Courts against any person except upon affidavit made by a credible witness, charging the party with a criminal offence, unless the party accused and charged has been recognized to appear in said County Court by a Justice of the Peace, or other committing Magistrate, or in custody under mittimus from some Justice of the Peace, or committing Magistrate; and such information shall in all cases be filed under the supervision and direction of the courts in term time.

Sec. 2. Be it further enacted, That the County Attorney, as contemplated, instead of being appointed by the County Courts, shall be elected by the Boards of Police of the respective counties, and shall hold office for two years, and said Boards of Police may fill vacancies caused by death, resignation or other cause, and said Attorney may, for good cause, be removed by the Boards of Police.

Sec. 3. Be it further enacted, That the twentieth section of the original act to which this is an amendment, shall be so amended, that all cases of larceny shall be deemed and held petty larceny, when the value alleged to have been stolen, shall not exceed the value of twenty-five dollars; Provided, that the larceny of a horse, mare, gelding, mule, jack or jenny, or other thing over and above the value of twenty-five dollars, shall be deemed and held to be grand larceny and felony.

Sec. 4. Be it further enacted, That the provisions of this act shall not go into operation until the first day of January, A. D. 1867. At the term of the Court in January 1867, unless for some cause the same fails to be held, then at the next term held thereafter, the terms of the said Court shall be fixed and appointed as provided for in this act. Provided, That the Boards of Police may elect a County Attorney at any session before the first day of January 1867.

Sec. 5. Be it further enacted, That the Probate Judge of Hinds County shall be the sole presiding Judge of the County Court of Jackson; the Probate Judge of Yalobusha County shall be the presiding Judge of Grenada; the Probate Judge of Tishomingo County shall be the sole presiding Judge of the County Court of Corinth; the Probate Judge of Chickasaw County shall be the sole presiding Judge of the County Court of Okolona; and the Probate Judge of Lauderdale County shall be the sole presiding Judge of the County Court of Meridian.

Sec. 6. Be it further enacted, That the territorial jurisdiction of the County Court of Meridian be limited and confined to that portion of Land and territory contained in the magisterial or Justice's beat in which the city of Meridian is located, and all persons required for said Court as jurors shall be summoned from that beat; and the territorial jurisdiction of the County Court of Lauderdale shall extend to, and embrace the remainder of the County of Lauderdale. The County Court of Meridian and the County Court of Lauderdale shall each be held once every two months alternately.

Sec. 7. Be it further enacted, That the Justices of the Peace of the several counties in this State shall have jurisdiction concurrent with the County Courts of their respective Counties, of all cases of assault, assault and battery, in which no deadly weapon is alleged to have been used—all cases of petit larceny, in which the amount alleged to have been stolen does not exceed the value of ten dollars, all cases of the unlawful carrying of fire-arms, insulting acts, words or gestures, and trespasses on property real and personal, made misdemeanors by law, committed in their respective districts.

Sec. 8. Be it further enacted, That on complaint to any Justice of the Peace by affidavit of any credible person, alleging the commission of any offence within his district with jurisdiction, said Justice shall issue his warrant for the arrest and trial of the accused, and on conviction, said Justice shall order such punishment to be inflicted, and enforce such sentence as now provided by law in similar cases. Provided, That the defendant shall have the right of appeal to the next term of the County Court of his County, upon entering into bond or recognizance in a sum to be prescribed by the Justice of the Peace, with good and approved security, conditioned for the full payment of all costs, and for the appearance of the defendant at the next term of said County Court; and on his appearance in said Court such case shall be tried and disposed of, and the decision of the Justice of the Peace shall stand, and on default in such defendant a forfeiture shall be entered against said defendant and his securities.

Sec. 9. Be it further enacted, That all acts and parts of acts conflicting with the provisions of this act be and the same are hereby repealed.

Approved Oct. 30, 1866.
BENJ. G. HUMPHRIES,
Governor of Mississippi.

MAXIMILIAN LOOKING UP!!

FROM BALTIMORE!
MARYLAND ELECTION!

Gold and Cotton

BALTIMORE, Nov. 1—11 P. M.—After a conference lasting up to 10 o'clock to-night, between the Commissioners and the Committee representing the Conservative party, with a view to the latter naming one Judge and one Clerk to be appointed by the Police Commissioners for each precinct, abandoned the whole matter and withdrew, without making any nominations for the police. This was done on account of an agreement with Gen. Grant. So the lists of Judges and Clerks stands as at the Mayor's election.

BALTIMORE, Nov. 6.—The election is progressing quietly as far as heard from. No disturbance has been reported.

NEW YORK, Nov. 6.—Cotton dull; Gold 48.

NEW YORK, Nov. 5.—Affidavits to prove the innocence of Rev. Mr. McMahon now sent to death in Canada, have been forwarded to Washington.

ST. PETERSBURG, Nov. 5.—The war has been renewed in Bokhara, and the Russian forces had besieged and taken the city of Turturab.

GALVESTON, Nov. 5.—Brownsville dates to the 2nd have been received. Skirmishing was going on between Canales and Lopez. The latter had lines well established. A large number of Orangists are waiting his arrival at Brownsville. Carnajal and Canales are the only chiefs in his force.

The La Cronica says the mission of the Empress was to demand from France officers for the Imperial army now organizing in Mexico; a new general-in-chief in place of Bazaine; to postpone the April return of the expeditionary corps two years longer, and provide for the payment of the debt. She has been completely successful in all her requests. The Emperor is taking the offensive in all parts. Taxes are collected without trouble. The Emperor has issued a decree confiscating the property of non-residents, and all who are or covertly aid the Liberals.

The Imperial army has been reorganized. Eight battalions have expired have enlisted again. Canales is on a big drunk and unfit for business.

MARYLAND ELECTION!
Consecration of Bishop Wilmer.

NEW ORLEANS, Nov. 6.—Gov. Wells appointed Geo. Chadwick Commissioner to the Paris Exposition, vice H. W. Palfrey, lost on the Evening Star.

Cotton steady. Sales 4,100 bales. Low Middling 35 3/4. Gold 49.

The Episcopal Bishops of Vermont, Alabama and Mississippi have arrived, and will consecrate Rev. J. P. B. Wilmer Bishop of Louisiana, in place of the late Bishop Polk. The American vessel Gen. Sherman got ashore at Corrae, and forty persons on board were murdered by the natives.

BERLIN, Nov. 6.—It is said all the Prussian army in Saxony is demoralized.

LIVERPOOL, Nov. 6.—Cotton active. Sales today 13,000 bales. Middling uplands 15 1/2.

BALTIMORE, Nov. 6.—The election passed off very quietly. The returns are incomplete, but the indications are that the conservatives carried the city.

WASHINGTON, Nov. 6.—The State department has official information of the departure of Maximilian from the city of Mexico.

NEW YORK, Nov. 6.—Cotton steady at 39 3/4.

The United States District Court, Judge Hill presiding, Hon. Robert Leachman, District Attorney, is in session but will probably adjourn during the week. The Grand Jury have been organized and are doubtless considering sundry cases that have been brought to their notice. No civil business will be disposed of at this time, but remains continued to the next regular May term.

W. A. Chisholm, a pioneer of the Mississippi press, died in Wilkinson county last week. He was the founder of the Woodville Republican.

An ex-Confederate soldier, named E. Moth, committed suicide in New York on the 30th ult., by inhaling the fumes of charcoal gas. He was sixty years of age.

At Mossy Creek, on the East Tennessee and Georgia Railroad, zinc is known to abound in immense quantities.

A company was formed to develop these mines in 1860, but the war put a stop to the enterprise. The Atlanta Era says another company has been formed for the same purpose, and that the prospects of success are flattering.

Advices from Indianola, Texas, to October 27, sum up the amount of cotton shipped to the 1st of September, at 9,000 bales, against 35,000 bales in 1860. The Indianola Times thinks that will show the probable percentage of the Texas crop this year.

On Tuesday a drove of one thousand sheep crossed into Virginia, over the chain bridge at Washington. They were driven from the West, and will be disposed of in the State of Virginia for the purpose of stocking the farms of those who were deprived of their stock during the war.
